

# THE STALENGER UPRISING

For Immediate Release: 4/1/2018

**B**aruk Kaah invaded many realities before he set his sights on Core Earth. One of these was the world of the stalengers: big, floating starfish things that tried to signal their peaceful intentions by rubbing up against the vicious invaders.

The initial slaughter was horrible, but those who remained pretended to serve Lanala, mostly by just floating around and creeping out Baruk Kaah's warriors. Until the "Night of Many Stabs," when the stalengers finally struck back. This untold tale of their epic failure is explored in:

## THE STALENGER UPRISING SOURCEBOOK

Stalengers are one of the original Torg's most unique species. Now one or two are back to avenge their fallen world.

Set the tone in a prequel campaign where you float around not really doing anything. Move on to a very special **Day One** adventure where your hapless, peace-loving characters face savage edeinos warriors, bloodthirsty gotaks, and Baruk Kaah himself in the crucial opening hours of the invasion. Finally, play through the epic **Night of Many Stabs Campaign** as a group of confused stalenger bystanders caught up in an intricate web of destiny!

### CHARACTER CREATION

Rise above it all when you build your own stalenger character with the stalenger racial template. Customize your character with Stalenger Racial Perks!

### EXAMPLE PERKS

- **Dancing Collocytes:** The stalenger is particularly adept with the dangling feeding tentacles around its oral aperture. *Unarmed combat* attacks count as *Favored*.
- **Supple Husk:** Reduce the normal -6 penalty to *persuasion* and *streetwise* to only -4 thanks to the stalenger's strangely captivating outer membrane.
- **Unblinking:** Win any "stare down" thanks to not having eyes. After an Active Defense gain a +10 bonus to defense against *intimidate* interactions.

Sixteen playable archetypes, one for each stalenger who survived the **Night of Many Stabs!**

### STALENGER CULTURE

Learn more about stalenger society and their uncomfortable "touch" language. Get tips on how to convincingly role-play a creature with no tongue, eyes, or fine appendages suitable for writing. Plus: an in-depth look at stalenger reproduction, because you know you've been wondering.

(It's even worse than you think.)
